BY CUTICURA.

WHAT JURORS SAY.
INTERVIEW WITH SOME OF THE MEN
WHO TRIED CLUVERIUS.

Their Positions as to Signing the Petition
Asking for Executive Clemency
cy. &c.

A *Dispatch* reporter started out yesterday morning to interview the Richmond jurymen who tried Cluverius, to ascertain whether or not they had the same opinion as when they agreed upon their verdict.

MR. TRIESE.

Mr. W. D. Triese, the first one examined, "Has any petition asking the Governor to pardon or commute the sentence of Cluverius been presented to you for signature?"

"No," answered Mr. Triese, "No petition has been presented to me."

"I would not."

"So you are now of the same opinion that you were when in the jury-box?"

"Exactly the same."

MR. PARKER.

No. 2 was Mr. W. H. Parker, clerk at Fourqurean, Price & Co.'s. This gentleman also said no petition had been presented to him. He said he had been shown by Mr. Carter Harrison, another jurymen, that Mr. Triese had written to him. When asked if he had signed it, he said, "I was told by Mr. Parker that he still held it." Mr. Parker, however, denied this.

"I have the same opinion about the case that you had when it was tried?"

"Yes, sir."

MR. DAY.

Mr. John P. Heath, of Davis Brothers, Broad street between Fifth and Sixth, was next questioned. At first he seemed loath to talk about the case, but after awhile he admitted that a letter had been shown him by Mr. Carter Harrison, who requested him to sign it.

"What did the letter contain?"

"Well, I don't remember exactly, but it asked the jury to do the best they could for Cluverius."

"Did you sign it?"

"Yes."

"Would you sign a petition asking Executive clemency for Cluverius?"

"I would not."

MR. HEATH.

Mr. John P. Heath, clerk at Herman C. Fourqurean's shoe store, was next questioned. He also had been shown the letter by Mr. Carter Harrison, but had refused to sign it. He said Mr. Harrison had thought it out. In fact, he said, Mr. Harrison had told him that it would be useless to think about it, for he was convinced the prisoner was guilty, and therefore thought it improper to interfere with the sentence of the court.

Further, Mr. Heath said he had never seen a man of such a build as Mr. Cluverius after all the evidence had been concluded, only one call was made, and every man awarded in favor of a verdict of guilty, and therefore thought it improper to interfere with the sentence of the court.

Further, Mr. Heath said he had never seen a man of such a build as Mr. Cluverius after all the evidence had been concluded, only one call was made, and every man awarded in favor of a verdict of guilty, and therefore thought it improper to interfere with the sentence of the court.

"And your convictions are as fixed now regarding the prisoner's guilt as they were then?"

"Yes, sir."

The other Richmond jurymen Mr. Carter Harrison is out of the city and Mr. Triese has removed to Baltimore.

The rest of the jurors were citizens of Alexandria.

Chairman of Fredericksburg Rail-

road stock.

All has been taken up in the United States Circuit Court on the equity side by Memento Robinson and others against H. B. Newcomer, W. T. Walers, and others, charging that certain shares of stock in the old Fredericksburg and Potowmack Railroad Company had been put into the hands of the two managers named by the Wellington and Welden Railroad Company, their successor, by forged and fictitious bills, and that Newcomer and Walers had distributed these shares among a large number of persons at the hitherto unnamed company by forged and fictitious bills; that the shares are not owned by the original holders; that the object of these transfers was to evade the effect of the provisions of the Code of Virginia relating to the sale of large amounts of stock; that the stock will be given to the stockholders in the meeting of the stockholders to be held November 15, 1855.

Judge Hunter has appointed Matthew P. Crumlin, a local attorney, to represent the parties in this case. The trial is to be held in the Circuit Court of Appeals at Harrisburg, Pa., on December 10, 1855.

The meeting of the stockholders of the Fredericksburg company will be held December 10, 1855.

In 1848 a cancer developed on my lower lip. I went under treatment at once, and from time to time since that have had no relief except what I have had in the use of various nostrums. Now I have no benefit at all. It has progressed right along, and now involves my entire mouth. The cancer is now so large that it covers half of my left cheek. Only a little scar marks the place where it had been. I am ready to answer all questions relative to its nature.

Mrs. JOYCE A. McDONALD,
ATLANTA, GA. AUGUST 11, 1855.

I have had a cancer on my face for seven years extending from my nose to my chin, and on the other. It has given me a great deal of pain, at times burning and itching to an extent that it was almost unbearable. I have had a surgeon to remove it, but it did not go away. So, it has done more good than a cure, but well, and I believe will soon be cured.

For a week past I have been in a feverish condition, and I am very weak. I am now in bed, and expect to be well again.

EPITHELIOMA.

SKIN-CANCER.

For seven years I suffered with a cancer on my face. All the simple remedies were applied to alleviate the pain, but the disease continued to grow, finally extending to my nose, from which came a yellowish discharge very offensive in character. It was also inflamed, and annoyed me a great deal, and about half a year ago I had to give up all work. The cancer increased rapidly, and the nose became so large that it obstructed my breathing, and I could not sleep. Once I had to give up all work, and the disease continued to grow, finally extending to my nose, from which came a yellowish discharge very offensive in character. It was also inflamed, and annoyed me a great deal, and about half a year ago I had to give up all work. The cancer increased rapidly, and the nose became so large that it obstructed my breathing, and I could not sleep. Once I had to give up all work, and the disease continued to grow, finally extending to my nose, from which came a yellowish discharge very offensive in character. It was also inflamed, and annoyed me a great deal, and about half a year ago I had to give up all work. The cancer increased rapidly, and the nose became so large that it obstructed my breathing, and I could not sleep.
